Joseph R. Hennel - Engineer

Following graduation from high school Mr. Hennel worked as a machinist for three years.

He served in the Navy from 1943 to 1946 as a Radio Technician and attended Miami University and the University of Michigan Engineering schools.

Mr. Hennel received his B.S. in Electrical Engineering in June 1949 from Evansville College.

While attending school and after graduation he was employed by Schoene Electronics Laboratory, Evansville, Indiana assisting in the design and fabrication of Vitamin A Photometers, and electronic timers.

Mr. Hennel joined Electronics Research, Inc. in August 1949 where he has been engaged in control circuit development.
